

## Actuate Practice

Assure eServices is a business oriented and technology based company. We possess expertise in Business Intelligence, Data Warehousing, e-Reporting, Web Application development, Application Integration, Maintenance and the like. Assure eServices provides services to Financial Institutions, Insurance, Hospitality, Retail, Manufacturing, Telecommunication and other industries.

Assure eServices is a Value Added Reseller partner of Actuate. Actuate Practice at Assure eServices helps organizations to unleash the power of Actuate for Information Delivery. Offering comprehensive array of custom solutions to organizations using Actuate technology is our primary focus area.

**Experienced Professionals.** Our principals have been working in Actuate products over a decade since the release of Actuate version 2. We bring technical, business and vertical expertise along with in-depth knowledge in Actuate suite of products, which ensures in building a successful solution that delivers meaningful values to customers.

**Vision to Reality - Faster with less money.** Our extensive experience in Actuate and reporting applications allow us to gain insight into the kinds of information required for a successful reporting solution. We start with a vision and make a quick transition through requirements, architecture, development, testing and rollout, without compromising the quality.

**Tools.** Applying process and methodology along with tools that we have compliment us to expedite the delivery process. Our internal Actuate Knowledge Base contains wealth of information helping us to identify and resolve the issues quickly.

AcExpediter is an Ajax enabled tool which uses iServer and WebServices on .NET environment. This productive tool enables us to do a batch uploading/downloading files quickly from file system to iServer and vice-versa (Figure 1).

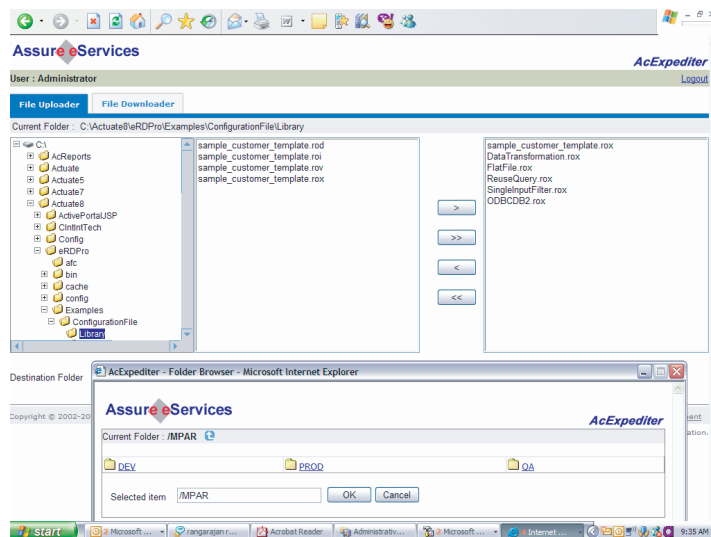

Figure 1 : AcExpediter

Actuate Practice offers a full range of solutions starting from identifying the business vision, analyzing the requirements, building sophisticated reports to scalable reporting infrastructure, delivering the solutions through various channels and beyond.
